

Remote Patient Monitoring

Extra Support for Better Health

Upperline Health has partnered with Quokka Care to offer remote patient monitoring, helping your care team stay connected to your health between visits.

Benefits of Remote Patient Monitoring

- ✓ **Daily Readings Sent to Provider**
Your health data is sent to your provider to track your progress.
- ✓ **Real-Time Monitoring**
Your readings are monitored to catch potential issues early.
- ✓ **Critical Alerts and Trends**
If readings need attention, alerts are sent to your Health Coach and provider.
- ✓ **Medical & Health Assessments**
Your Health Coach and provider can review your readings to offer insights and adjust medications.
- ✓ **Ongoing Support**
Regular check-ins from your Health Coach help support you in your health goals.
- ✓ **Easy to Use - Delivered to Your Door**
Your monitoring device ships directly to your door, ready to use. Set up in minutes - no apps, no complicated setup.
